Independence Made Simple

The Infinity

The new addition to the Bespoke Stairlift range. Drawing on over 25 years of knowledge within the Stairlift business we have created a product that offers supreme comfort and reliability. Focusing purely on our customers needs we have designed a system that is both ergonomical yet robust. Simple to operate and maintain ensuring a quiet, enjoyable ride without compromising safety. A variety of options are available to ensure our users that their Stairlift is tailored to suit their environment.

The Company

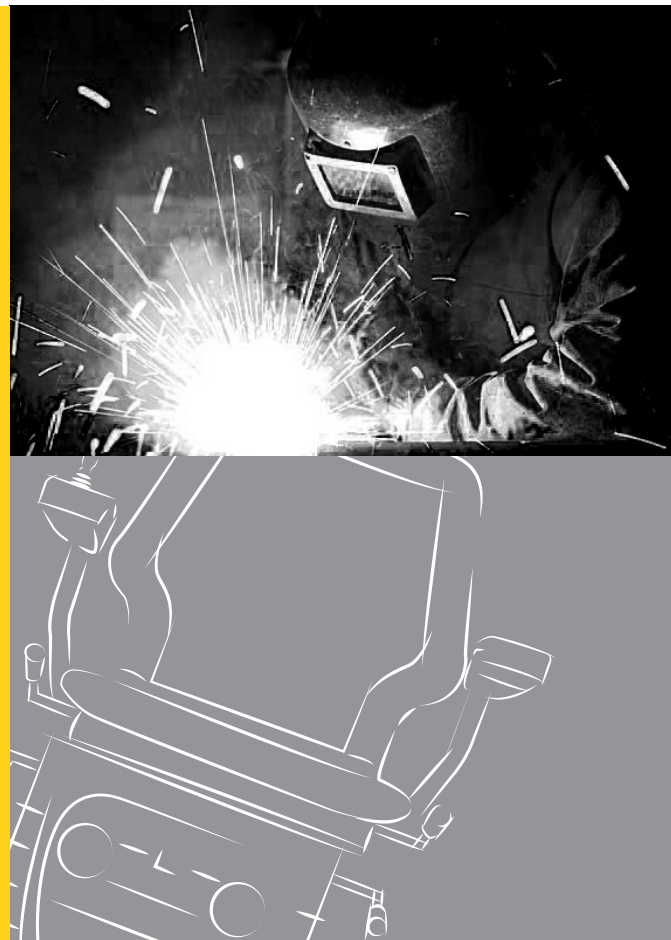

The Infinity lift continues to embody Bespoke Stairlifts' commitment to our customers. Utilising highly qualified engineers we can offer industry leading production times, fast and efficient installations and a superior aftercare service; ensuring our customers enjoy an exceptional experience.

Design & Manufacture

Your Infinity Stairlift has been designed using the latest, state-of-the-art 3D CAD modelling software. This means that when you buy an Infinity Stairlift it has been specifically designed to meet all of your personal requirements.

All our Infinity Stairlifts are constructed to the highest standards using the best materials and techniques available. We are committed to providing safe, reliable Stairlift solutions that accommodate our customers requirements.

Key Features

Ergonomic Flexible Joystick

Effortless directional control, even for those with limited dexterity.

Battery Powered

Works even during a power cut. Charges automatically so the chair is always ready to use.

Electronic Keyswitch

Complete security from any unwanted users.

Comfort Seating

Ensuring a comfortable, smooth ride. Various colour options available.

Seatbelt

Easy-to-use seatbelt offering the user added safety and comfort.

Swivel Lever

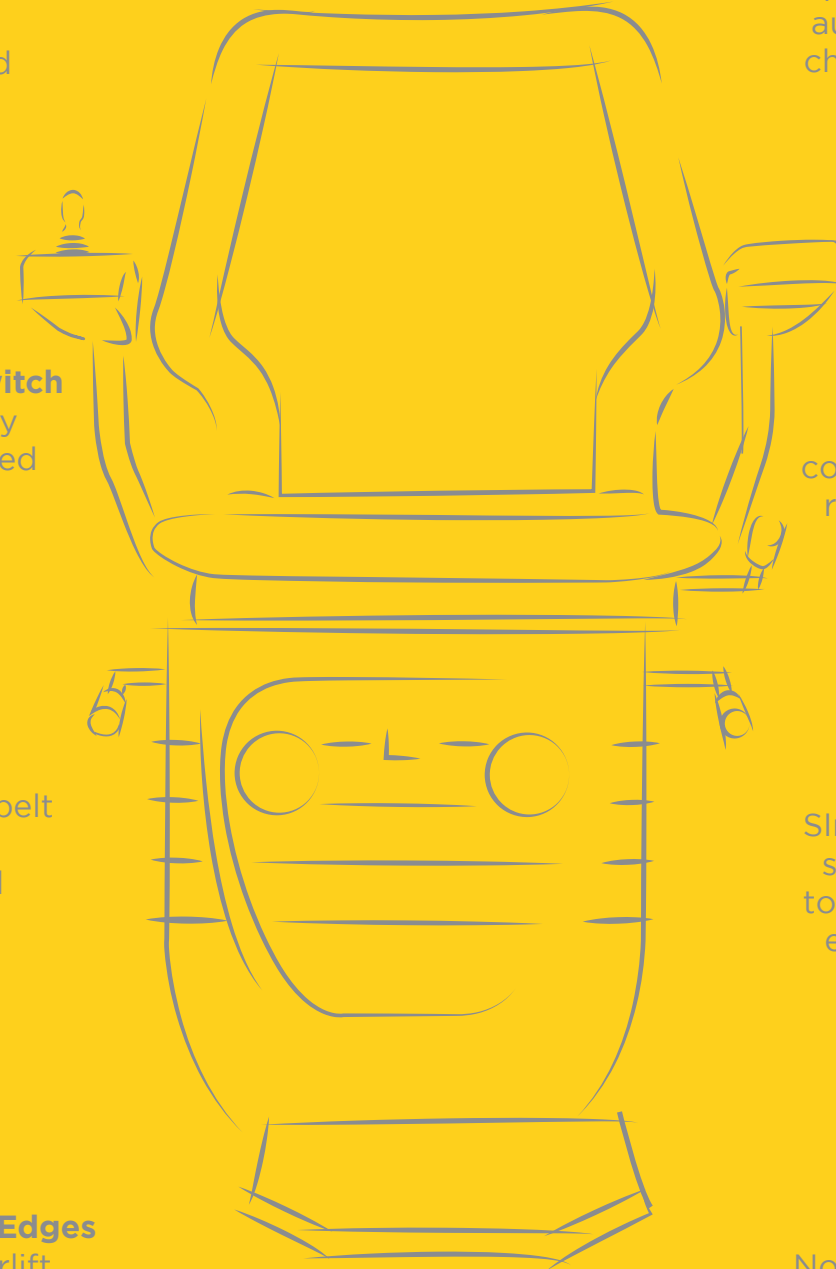

Simple lever on both sides of the stairlift, to enable the user to easily turn the seat. (Powered option available).

Sensitive Safety Edges

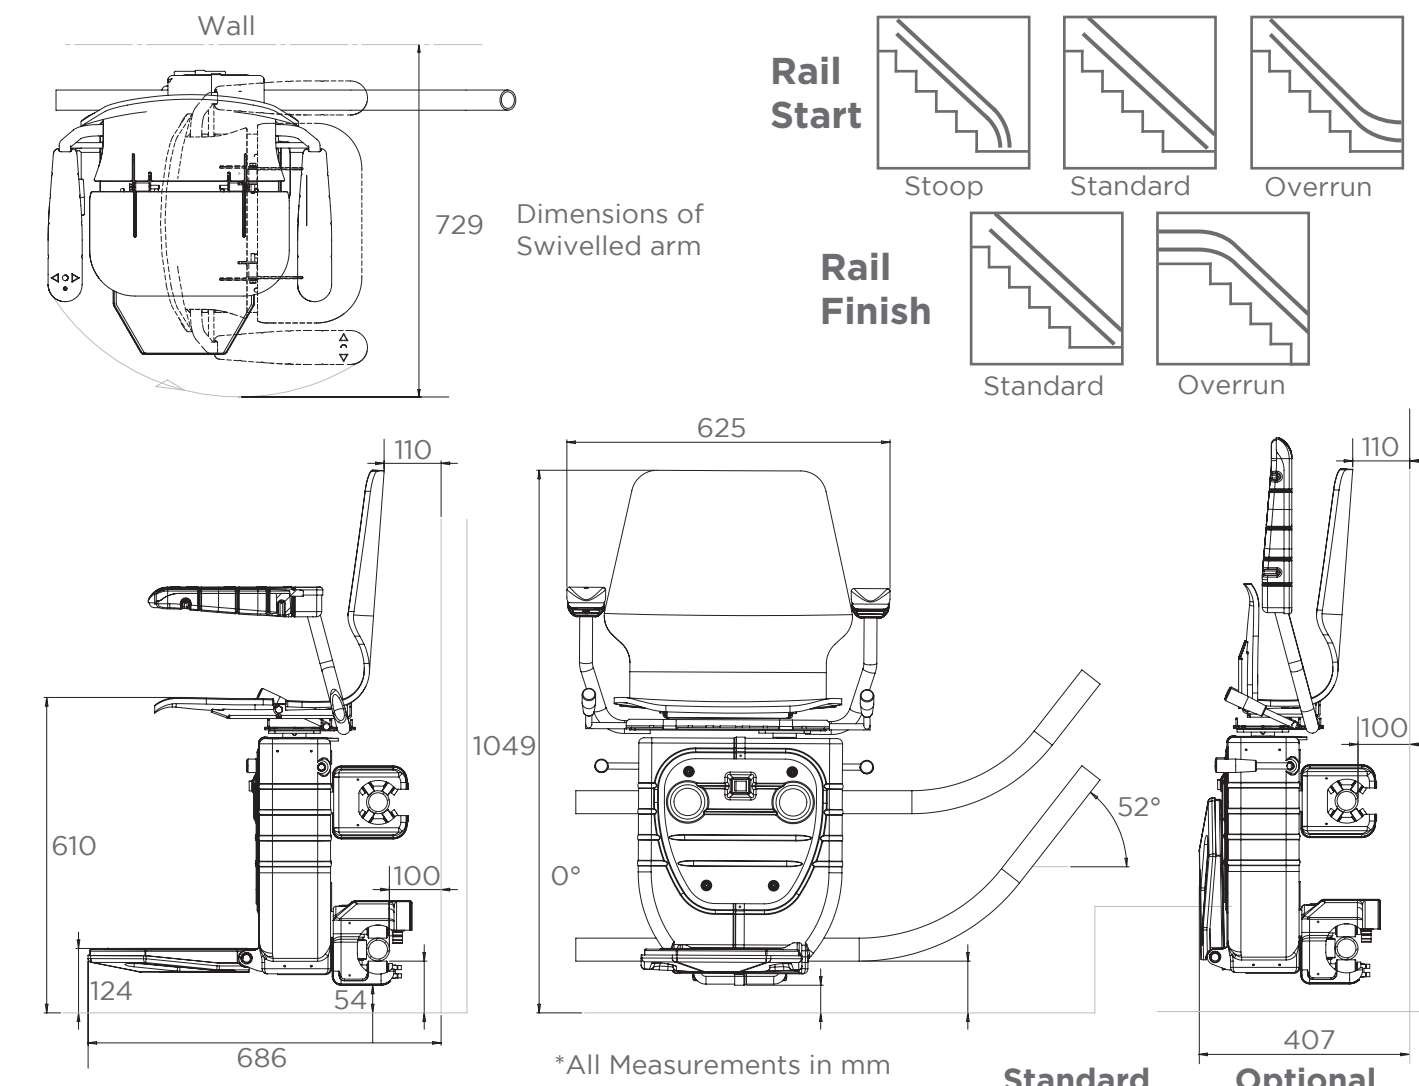

Enabling the Stairlift to stop safely should something obstruct the Stairlift.

Footrest Lever

No awkward bending to lower and raise the footrest. (Powered option available).
